# INTERNET PARA EL CONFORT DE TU VIVIENDA

11, abril

"Su sistema de calefacción esta disponible para usted, en la pantalla, con solo hacer klik con el ráton en la pagina web de opop"

El interface web perimte el acceso al sistema, desde cualquier lugar del mundo. Un vistazo a la pantalla del ordenador o los telefonos moviles es suficiente, para saber que esta sucediendo en la sala de calderas. Por otra parte, el sistema de calentamiento puede ser controlado a distancia; asi es la modena caldera de biomasa con la visualización web de OPOP.

Por ejemplo, con solo unos click de ratón se pueden comprobar o cambiar los estados de funcionamiento, temperaturas y otros. Ademas tambien se pueden ver los mensajes de error.
